

Good Public Service and the Men Back of the Service

1—The Generating System

The operation of our modern 19,000 horsepower generating system is under the direction of L. A. Lawrence, Chief Engineer.

Mr. Lawrence has been connected with this company and its predecessors for nineteen years, in which time he has seen the capacity of the system increase from 350 horse-power to its present size.

The generating system is the heart of the service—without the most conscientious and efficient work on the part of Mr. Lawrence and his organization, good public service would be impossible.

And TENNEY SERVICE aims to be "the best possible service at the least possible cost to the customer."

For Inactive Liver and Clogged System

A safe treatment should be used. A violent liver stimulant and a severe cathartic may afford temporary relief, but they weaken as well, and the reaction leaves the sufferer worse than before.

MANALIN

is prepared on different principles. It is mild, and induces a natural action of liver and bowels. It is safe, because it is free from any drastic purgatives. It is effective because it combines the principles of a liver arouser and a laxative. And it is pleasant to take.

THE TABLET FORM

is convenient, pleasing, effective and economical. Proper use will nearly always correct faulty habits and bring back a natural condition. The sufferer who fails to obtain proper results may write to the Medical Department of this Company, and get medical advice free of all charge. Start correcting your habits today—Manalin will help you.

Vote for Thomas H. Cave, Jr., of Barre City, for

Auditor of Accounts

at the

Primaries September 12

Mr. Cave's career in business and banking occupations has been capped by four years of service as assistant state treasurer, a position, by the way, which he still occupies; and the training which he secured in those capacities fits him well for the duties which devolve upon the state auditor. Mr. Cave's predilection and his training make him well adapted to the work as state auditor. Vote for him in the primaries and secure a capable official.

Primaries open from 12 to 8 p. m., Tuesday, Sept. 12.
